

Volunteer Application Math and Reading Buddies

Are you looking for community service hours or activities to put down on your college applications? Become a Math or Reading Buddy today!

The **Buddies** program individually pairs high school volunteers with elementary and middle school students who need to practice their math or reading skills. The **Buddies** usually meet for one hour per week at the Library—once paired, meeting times are set up by the volunteer and student’s family together. An orientation will be offered the first week of each session for new comers. The Youth Services Department hopes you will consider joining this fun and educational program!
